12th? Let's know
how CA Foundation
Books can help in
that!!

“ Don’t give up, the beginning is always the hardest.”

Choosing a career path after high school is one of the toughest issues that is faced by every student. Students are not sure of which career option they should choose. After their 12th grade, many commerce students intend to choose a CA and they seek out various opinions from everyone. [Books for CA Foundation](#) can help the students to make themselves prepare for the CA Entrance Exam. The majority of 12th graders are in dilemma about enrolling in CA or not.

For students who are in 12th grade, CA is one of the best courses for them. One of the best professional programmes after 12th grade is CA. Many students who want to become chartered accountants in India, choose the CA programme. Chartered Accountants are in great demand both in India and throughout the world. CA is the best option for students who

enjoy working with numbers and desire a lucrative career with a competitive salary. Everything has benefits and drawbacks. Everyone is not capable of succeeding in every area, for which people also blame CA as one of India's most difficult courses.

Chartered Accountants are in high demand in India as more businesses locate their headquarters there as a result of rising globalisation. To keep their financial statements up to date, these businesses needed a sizable staff of Chartered Accountants.

Who is a chartered accountant?

Most people believe that Chartered Accountant is a position or designation that aids in a company's financial issues, and they are entirely correct. However, in the time we live in, a chartered accountant is someone who contributes to the efficient financial management of an organisation. Now you would be thinking of **How to become CA After 12th**. The value of a Chartered Accountant in a company is as important as a General Manager or Managing Director.

Today, a chartered accountant can work in any industry as long as their knowledge and abilities support an organisation's growth. Any position, from auditor to head of cost accounting, can be held by a chartered accountant. One can surely crack the exam and become a Chartered Accountant with the help of [best books for CA Foundation](#). The majority of chartered accountants' jobs involve managing all of the company's financial operations in addition to providing financial advice and money management assistance to other organisations

Chartered Accountant as a career:

Every sector of the Indian market has a huge demand for chartered accountants. Because there is a shortage of chartered accountants in our country. Some people believe that CA is impossible to pass because the passing rate is lower in India than it is in other countries. On the other hand, individuals continue to attempt the CA Exam after the 12th.

In India, a career as a chartered accountant is promising. A chartered accountant in India is someone who has developed their financial stability. Every organisation that deals with money and taxes needs a Chartered Accountant, so you won't be stuck in a complex situation.

In India, a CA can work for an organisation or open their own chartered accounting firm. Any time of the year, there is a placement drive for a qualified CA in India. If you don't want to work for an organisation, you can run your own business, where your staff will deal with thousands of clients.

How to Become an Indian Chartered Accountant?

There is no such requirement that applicants for Chartered Accountants in India must be students of Commerce. Anyone can enrol in the CA programme in India, whether they are commerce students or

In India, becoming a chartered accountant is a straightforward process. After receiving their diploma or after graduating, one may also join CA. Students who have already graduated or are in the post-graduation stage have benefited in some ways from skipping a few steps.

Students who plan to pursue CA after the 12th must follow the Foundation Route strategy. For graduate and postgraduate students, there is also the CA Direct entry route method. [CA](#)

[Foundation Course Books](#) are just for those hardworking aspirants who vigorously want to succeed and clear the CA Foundation Exam.

All of the Chartered Accountant exams in India are administered by ICAI. In India, a person must successfully complete Class 12 from a recognised state board or central board in order to become a chartered accountant.

Duration of the CA Course After 12th

The length of the CA programme in India varies from student to student. It will take a student who enrolls using the CA Foundation route method approximately 4.5 years to complete all training and exams on time in the first attempt.

Since they are exempt from the CA Foundation steps, students who are graduating or who have recently graduated would have a shorter time to complete the CA Course.

How to Become an Indian Chartered Accountant:

After 12th, becoming a CA is fairly simple. In order to pass the CA Steps class 12th students in India must pass all three levels of the CA examination.

The Important CA Course Details after 12th grade are listed below:

CA Foundation, CA Intermediate, and CA Final

After completing grade 12, students must also complete three crucial training sessions in order to become a CA.

- ICITSS (Integrated Course for Information Technology and Soft Skills)
- Articleship training (3 years)
- AICITSS (Advanced integrated course for Information Technology and Soft Skills)

CA FOUNDATION:

The first level of the exam that a student who plans to enroll in a Chartered Accountant course after 12th must pass is called CA Foundation. The programme was formerly known as CPT (Common Proficiency Test). To make it a little more difficult, it has now changed to CA Foundation. Prepare yourself with the help of [study material for CA Foundation](#) to get the best results. This stage must be passed by students who are considering How to Become a CA After 12th grade.

Students have been given four months to prepare for the CA Foundation examination after registering for the CA Foundation. The easiest CA exam in India is CA Foundation. The CA Foundation exams have four subjects in total.

Students must receive a minimum of 40% in each subject and an overall grade of 50% in order to pass the CA Foundation stage and advance to the CA Intermediate stage.

ICITSS (Integrated Course for Information technology and Soft skills):

Following the CA Foundation exam, there is a 2.5 month training period. The student studying to become a Chartered Accountant must complete the same training in addition to the exam. The ICAI requires that you complete these courses.

ICITSS is a 15 days training programme that combines IT and orientation classes to teach fundamental information skills.

Students learn about the fundamental computer abilities needed by chartered accountants as well as communication skills.

CA INTERMEDIATE:

One of the most crucial levels of CA, as well as one of the hardest, is Intermediate.

Two groups make up CA Intermediate Subject. Students can decide whether to present both groups at once or separately.

The CA Intermediate exam serves as a bridge between the CA Foundation and CA Final exams. Take [CA Intermediate books](#) published by Shuchita Prakashan to crack the bridge. Students receive in-depth instruction on the financial or accounting aspects. They are also given instruction in both theoretical and practical aspects of CA.

Nine months are allotted for students to study for the CA Intermediate exam.

They can enroll in the CA Articleship training after passing either one group or both groups.

Training for CA Articleships (3 years):

In order to apply for the CA Articleship training, you must successfully complete at least one group of CA intermediate along with the ICITSS training.

Articleship training for CAs is required, and students are encouraged to join a CA firm and complete the required three years of training.

The exact tasks performed by chartered accountants in the real world are taught to students. Given the actual weight of financial statements, practical training is given to get to make them ready for the future.

Students who have only passed one group must pass the second group as well before they are qualified to take the CA Final.

AICITSS (Advance integrated course for information technology and soft skills):

In this more advanced ICITSS programme, students learn advanced PC accountancy skills in addition to lessons on how to present themselves, communicate, and get advice on how to grow personally.

Students who have completed their articleship training or are within the final six months of their articleship training may sit for the CA Final Examination.

CA FINAL:

The CA Final exam, which is also one of the most difficult ones, is the last milestone for CA Final students. To pass the test, students must put in about 12 to 14 hours of study time and must consider the authentic [CA Final Books](#) by Shuchita Prakashan.

Students can enrol as members of the ICAI after passing the CA Final Examination to become chartered accountants in India.

These are the various training programmes and exams that students must pass in order to become Indian chartered accountants. CA is not that difficult; with consistent study, unceasing effort, and analysis, students are able to perform well on and pass CA exams.

A fresher can easily obtain a salary package of 6 to 7 lakhs with the completion of Chartered Accountant, and this salary package increases over time. If you truly want to accomplish something, you must put in a lot of effort before you can reap the rewards.

Conclusion:

CA is one of the best courses which one can choose after their 12th Board. It's neither an easy nor so tough exam but it needs hard work to crack . [CA Foundation Books](#) will help you to do so. There are three different levels of CA Examination i.e., CA Foundation, CA Intermediate and CA Final and one should crack these three steps to become CA in India. Under the new CA Syllabus one should also complete the Information Technology Training in two phases:

- ICITSS (Integrated Course for Information Technology and Soft Skills)
- AICITSS (Advanced Integrated Course for Information Technology and Soft Skills)
- Three years CA Articleship is also needed after the CA Intermediate.

To become a Chartered Accountant in India one must qualify all three levels of the CA Course.
